1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

2. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negatived by the manner in which the invention was made.

3. Claims 26-28, 33-39, 41 and 42 are rejected under 35 U.S.C. 102(b) as being clearly anticipated by Wood (3,892,870, Exs. 1-3) as set forth in paragraph no. 4, Paper No. 20071127.

4. Claims 48 and 49 are rejected under 35 U.S.C. 103(a) as being unpatentable over Wood as set forth in paragraph no. 6, Paper No. 20071127.

5. Claims 29-32 are rejected under 35 U.S.C. 103(a) as being unpatentable over Wood in view of Nussinovitch et al (6,299,915) as set forth in paragraph no. 7, Paper 20071127.

6. Claims 40 and 43-47 are rejected under 35 U.S.C. 103(a) as being unpatentable over Wood in view of Dugger et al (WO 98/47392) and Mann (5,718,894) as set forth in paragraph no. 8, Paper No. 2007127.

7. Applicant's arguments filed March 4, 2008 have been fully considered but they are not persuasive. Applicant's contention that Wood fails to disclose the method by which the sol is made is without merit since Wood clearly discloses that the sol is

prepared by mixing water with the gellable component in a process which is continuous (Exs. 1-3 of Wood). Further, applicant's results, of using a single mixer for the entire claimed process, are totally expected as well as being disclosed by the mixer used in Wood.

8. **THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
